Domestic Ventilation Systems Learning Manual

About BPEC

BPEC has become an industry leading provider of qualifications, assessments and learning materials through working closely with a UK wide network of colleges, private training centres and industry stakeholders within the Building Services Engineering (BSE) sector.

Our aim is to be trusted as the natural choice to support learning and development, whether people are embarking on a career or currently working in the sector, we want to be a key part of your 'Learning for Life' experience.

Equal Opportunities

BPEC fully supports the principle of equal opportunities and we are committed to satisfying this principle in all our activities and published material.

Publications

Every effort has been made to ensure that the information contained in this publication is true and correct at the time of publication. However, BPEC products and services are subject to continuous development and improvement and the right is reserved to change products and services from time to time.

BPEC do not accept any responsibility for any acts or omissions on the part of any person installing, servicing or commissioning gas appliances, which may arise from the use of this learning material. The material and information contained in this learning manual is for the purpose of study and reference only which may lead to gaining a recognised gas qualification, it is not a licence to practice.

The material contained within this manual was correct at the time of publication

Anyone working on Gas Appliances has to be qualified and registered with the appropriate Gas scheme provider e.g. in the UK this would be Gas Safe. BPEC do not accept any liability if this learning material is used for any alternative purpose from which it is intended.
