

Resources guide for the Level 3 Diploma in Plumbing and Domestic Heating

Phase 1 – (available FREE as PDF downloads to centres delivering the BPEC qualification)

- **Phase 1 knowledge workbook**– 150 pages of questions linked to the units, learning outcomes and assessment criteria in phase 1.
- **Phase 1 practical guide** – a learner workshop guide for all the practical techniques and processes required for phase 1.
- **Phase 1 practical workbook**– a workshop booklet that allows the learner to learn and perfect the pipe bending, fabrication and jointing techniques required for phase 1 assessment. This booklet allows tutor marking and guidance so the learner can track their progress through the phase.
- **PowerPoint presentations** – 115 PowerPoint presentations covering every unit, learning outcome and assessment criteria for phase 1. Every assessment criteria has its own corresponding PowerPoint presentation.
- **Phase 1 scheme of work** – a dedicated scheme of work for Phase 1 using Microsoft Word to allow centres to add their own style to the phase 1 content.

Phase 2 – (available FREE as PDF downloads to centres delivering the BPEC qualification)

- **Phase 2 underpinning knowledge pack** – 70 pages of questions linked to the units, learning outcomes and assessment criteria in phase 2.
- **Phase 2 combined practical work guide** – a learner workshop guide for all the practical planning and installation techniques and processes required at phase 2. This work guide also includes a workshop booklet that allows the learner to learn and perfect the practical planning and installation techniques required for Phase 2 assessment.
- **PowerPoint presentations** – at least 150 PowerPoint presentations covering every unit, learning outcome and assessment criteria for phase 2. Every assessment criteria has its own corresponding PowerPoint presentation.
- **Phase 2 Scheme of Work** – a dedicated scheme of work for phase 2 using Microsoft Word to allow centres to add their own style to the Phase 2 content.

Phase 3 – (available FREE as PDF downloads to centres delivering the BPEC qualification)

- **Phase 3 Underpinning knowledge pack** – 50 to 70 pages of questions linked to the units, learning outcomes and assessment criteria in phase 3.
- **Phase 3 Workshop guide** – a learner workshop guide for all the practical testing, commissioning, servicing and fault-finding techniques and processes required at Phase 3.
- **Phase 3 practical workbook** – a workshop booklet that allows the learner to learn and perfect the testing, commissioning, servicing and fault-finding techniques and processes required for Phase 3 assessment. This is integrated into the Workshop Guide and allows tutor marking and guidance so the learner can track their progress through the Phase.
- **PowerPoint presentations** – at least 149 PowerPoint presentations covering every unit, learning outcome and assessment criteria for phase 3. Every assessment criteria has its own corresponding PowerPoint presentation.
- **Phase 3 scheme of work** – a dedicated scheme of work for phase 3 using Microsoft Word to allow centres to add their own style to the Phase 3 content.

Gas Pathway – (available FREE as PDF downloads to centres delivering the BPEC qualification)

- **Gas pathway in-centre training pack** – For those learners completing the gas pathway, a free 52-page training pack covering practical practice required for the gas pathway summative assessments.
