ECTA - letter of support for BPEC Level 3 Award in Air Source Heat Pump Systems (Non-refrigerant Circuits)

Dear Paul Wilson

I am pleased to be able to confirm our support for the above qualification.

The BPEC Level 3 Award in Air Source Heat Pump Systems (Non-refrigerant Circuits) is a qualification which we will be pleased to be able to offer to our learners. The qualification will provide our learners with an excellent understanding of the installation, commissioning, handover, maintenance, servicing, and fault-finding requirements of air source heat pumps required to achieve the qualification.

It is estimated that this qualification will be delivered by our college to around 100 learners per academic year. The numbers anticipated should continue from year to year.

Kind Regards
