Kevin Clark – Business Area Manager
BPEC Certification
1-2 Mallard Way
Derby
DE24 8GX

5th November 2021

Dear Kevin

Regulated Qualification Suite – Heat Pumps

The Microgeneration Certification Scheme (MCS) supports the development and awarding of the following named qualifications. We will recognise these qualifications as meeting the competency requirements for Heat Pump installers under our Scheme:

1. BPEC Level 3 Award in Heat Pump Systems (non-refrigerant circuits)
2. BPEC Level 3 Award in Ground Source Heat Pump Systems (non-refrigerant circuits)
3. BPEC Level 3 Award in Air Source Heat Pump Systems (non-refrigerant circuits)

MCS is a standards organisation. We create and maintain standards that allow for the certification of low-carbon products and installations used to produce electricity and heat from renewable sources.

I can confirm that I consent to the MCS name and logo being made publicly available on the BPEC website and marketing materials, for the purpose of demonstrating our support as outlined above.

Yours sincerely

A handwritten signature in black ink, appearing to be 'Kevin Clark', written over a horizontal line.
