

# BPEC Certification Ltd. Pricing Policy

## Awarding Organisation

Edition Date: January 2026

### Introduction

This document is intended for our centres and sets out the fees we will charge for our various qualifications, products and services as well as our invoicing arrangements.

Our aim is to have a pricing structure and associated invoice arrangements that are:

- fair and appropriate and provide value for money for centres.
- clear and transparent, with no hidden costs or details.

### Review arrangements

We will review this document and its associated procedures annually as part of our self-evaluation arrangements and/or in response to customer, or regulatory feedback and any trends that may emerge in the types of queries we may have received.

If you would like to feedback any views or have a query in relation to any aspect of our fees or invoicing arrangements please contact us via the details provided at the end of this document.

### Invoicing approach

BPEC will normally invoice your centre within **25** working days of the agreed product/service being delivered or from receipt of learner/candidate registrations and these will be sent to your Management Representative unless you inform us otherwise (if you would like to change who we send the invoices to please contact us via the contact details at the end of this policy).

Each invoice will contain details of:

- The product/service being provided – including details of the learners/candidates registered per qualification/assessment (if relevant to the invoice)
- The payment method and where required our bank account details
- Our payment details (BACS details)

Upon receipt of the invoice, payment should be received by us within **30** days of the invoice date. In which case we will update our records to show full payment has been.

Failure to pay due invoices may result in services and/or products being phased out and/or withdrawn from your centres.

### Records

So we can provide an auditable trail of transactions in accordance with HMRC guidelines, we will keep records of all invoices issued and received. These will be made available should your centre or other relevant parties (such as the regulator OFQUAL etc.) request them.

## Minimum Threshold

To deliver the right quality of service and outcomes to our centres and learners, a minimum amount of resources and activity must be allocated to manage each individual approved centre. The minimum threshold ensures that we can continue to offer a quality service to every single centre which chooses us as their Awarding Organisation.

All centres approved for delivery of regulated qualifications with BPECs Awarding Organisation are required to spend a minimum order value each year. The accumulative total based on learner registrations with BPEC Awarding Organisation runs from 1<sup>st</sup> January to 31<sup>st</sup> December each year. Where centres fail to meet the minimum threshold an annual top-up invoice will be issued to cover the shortfall. For example, if a centre spends £1350.00 on registrations in the year, a charge of £150.00 will be applied.

BPEC Awarding Organisation reserves the right to exempt customers from this threshold. Customers that may be affected by this will be contacted via letter each year. Invoicing will be shortly after 1<sup>st</sup> January each year.

## Fees

The fees listed below are correct at the date shown at the top of this policy and are in line with our current Awarding Organisations fees list. BPEC is committed to ensuring the fee details are updated every time fees have been introduced and/or altered and made available to our centres at the earliest opportunity to help them with their planning arrangements.
